About me

Recently relocated to the Springs, I'm not looking for a relationship per se. I mean, if something developed that would be one thing, but I'm not actively searching for one! I'm here to make a life for myself first, but oh how I love to play! I haven't been active in any community for about 6 months now. Mostly due to location. Originally from Houston, that's where I learned my passion for submission. I don't accept random friend request so please drop me a line via FET mail and let's talk...I'm not rude unless you are.

Some of my favorite quotes:

“Submission is not about authority and it is not obedience; it is all about relationships of love and respect.” – Wm. Paul Young

“It's hard for an educated woman to turn her head off. That's part of the joy of being a submissive. None of the decisions are yours. When you can't refuse anything and can't even move, those voices in your head go silent. All you can do, and all you are permitted to do, is feel.” – Cherise Sinclair

“Men love a submissive woman. Even when they say they don't. There's just something about a beautiful, soft woman looking to them to protect and take care of them that inspires a man to

greatness.” – Maya Banks

“If my Master is lost, I'll find him. I'll lead him back to himself, because to serve doesn't always mean to follow.” – Joey W. Hill

"A truly submissive woman is to be treasured, cherished and protected for it is only she who can give a man the gift of dominance." - Dominique Aury

"A riding crop and a blindfold doesn't make it BDSM. There is a big difference between being kinky and being in the scene. It's not a sexual thing to me, it's a very spiritual thing." – Domina Blue

"To possess a submissive, he knows he must first earn her respect. To do this, he must prove he is what he says he is, that he cares for her, that he would push her limits only to build her strengths, that he is willing to spend the time to learn her as a person first ... He is willing to live up to her trust in him." – Raven Ashbourne

Some of my favorite movies:

- Silence of the Lambs
- Pulp Fiction
- Swing Kids
- Dreamcatcher

Some of my favorite bands/DJs:

- Diplo
- Major Lazer
- Pink Floyd
- Evanescence
- Beth Hart
- Joe Bonamossa

A lot of people who are new to the world of BDSM and power exchange start out with a pretty simple idea of how punishment and discipline work in a D/s dynamic. It goes something like this: Sub behaves badly... Dom spansks sub.. Sub learns lesson! I... [continue reading →](#)

When you meet a potential submissive/play partner, take her/him out on a lunch date, in broad daylight, in public. Tell them about yourself and create a platform where she/he feels comfortable in. Don't talk their fucking ear off. Take time and... [continue reading →](#)

Among the many problems that can happen in a scene, panic attacks can be a serious one, especially if the Top doesn't know how to handle them. They are more common than you may think. Last month, during a talk I gave at Threshold (the BDSM organiz... [continue reading →](#)
